

Feedback to SEM/SET

Points raised in SEM and LCF (if applicable):

▶ Specific points in SEM:

- Workload is “too little” and “too much”
- Module is “too hard”
- Prefer to “be taught by one lecturer who speaks english well”
- “very difficult to understand what the lecturer said”

▶ Improvements:

- “several small courseworks”
- “much better off with more examples”
- “better examples for materials”

Note: only those common comments from more than one student are collected here

Feedback to SEM/SET

Outline any changes intended for next Session:

- ▶ More examples will be provided in the next session to assist better understanding.
- ▶ The use of teaching assistants to deliver the lectures will be minimized in the next session.
- ▶ The nature of the module doesn't make coursework assessment viable due to the main content is on theory. For the next session, optional un-assessed coursework would be made available, and feedback of these coursework exercises will be provided during office hours

Feedback to SEM/SET

Feedback on Assessment

- ▶ Feedback of exam results will be available as soon as the marks are released. This includes the average, highest and lowest marks in the class; common mistakes made in the exam, and distribution of marks in the class. Each week, feedback will be given to questions in person via office hours on Thursdays.
- ▶ This information has also been given at the module's web page.

G53KRR Exam

- ▶ 14 Jan 2015, 13:30–15:30
Portland C11
Please double check your portal for the definitive time and venue
- ▶ **Four compulsory questions, of 25%, each with several sub-questions**
 - First order logic
 - Resolution
 - Horn clauses
 - Description logic

Note: similar difficulty level as that of last year
